The MOD title catalog screen 197 (FIG. 8A) also allows the user to change the current browse-by list 201 to different catalog groupings. FIG. 9 is a display diagram of the MOD title catalog screen 197 with a browse-by screen 211 overlaid on top of the MOD title catalog screen 197. The browse-by screen 211 appears with choices for sorting all available MOD titles in a category selection portion 212, a plurality of categories of browse-by options. In a description portion 214 of the browse-by screen 211, a brief description is displayed about a highlighted category in the selected category portion 212. The various categories are essentially filters of all the movies shown under individual title category listings in the browse-by screen 211. As non-limiting examples, various browse by catalog categories include all titles, actor, action/adventure, adult, comedy, drama, family, rating, new releases, last chance, specials, among others. Once the user selects a category from the browse-by screen 211, the browse-by screen 211 disappears and the current browse by list 201 displays the new set of MOD titles for the selected category. The user may alternatively exit the browse-by screen 211 without changing the title display by following instructions shown in a bottom portion 246 of the browse-by screen 211.
